

**Vehicle Service Road E Temporary Realignment West of Taxiway R, and Nightly Taxiway E Closures for Taxiway P Project Construction**

The Taxiway P Project will require a temporary realignment of Vehicle Service Road (VSR) E due to enabling construction activities. VSR E will be temporarily realigned for approximately 45 calendar days beginning March 12, 2020 for this construction activity. To ensure the safety of all drivers and construction staff working adjacent to the temporary VSR E realignment, please observe all surface painted markings and signs, reduce speed, and exercise caution when driving through this segment.

This phase of the Taxiway P Project enabling construction activities will also require nightly closures of Taxiway E between Taxiway R and Taxiway Z from 2330-0730L for approximately 45 calendar days beginning March 12, 2020.

Please reference the following page for an exhibit depicting the VSR E temporary realignment and Taxiway E nightly closure limits.

A Notice to Airmen (NOTAM) will be issued 72 hours prior to the scheduled closures. Please plan your flight operations accordingly. For current airfield operating conditions please check NOTAMs at <https://notams.aim.faa.gov/notamSearch/disclaimer.html>. Thank you for your support.

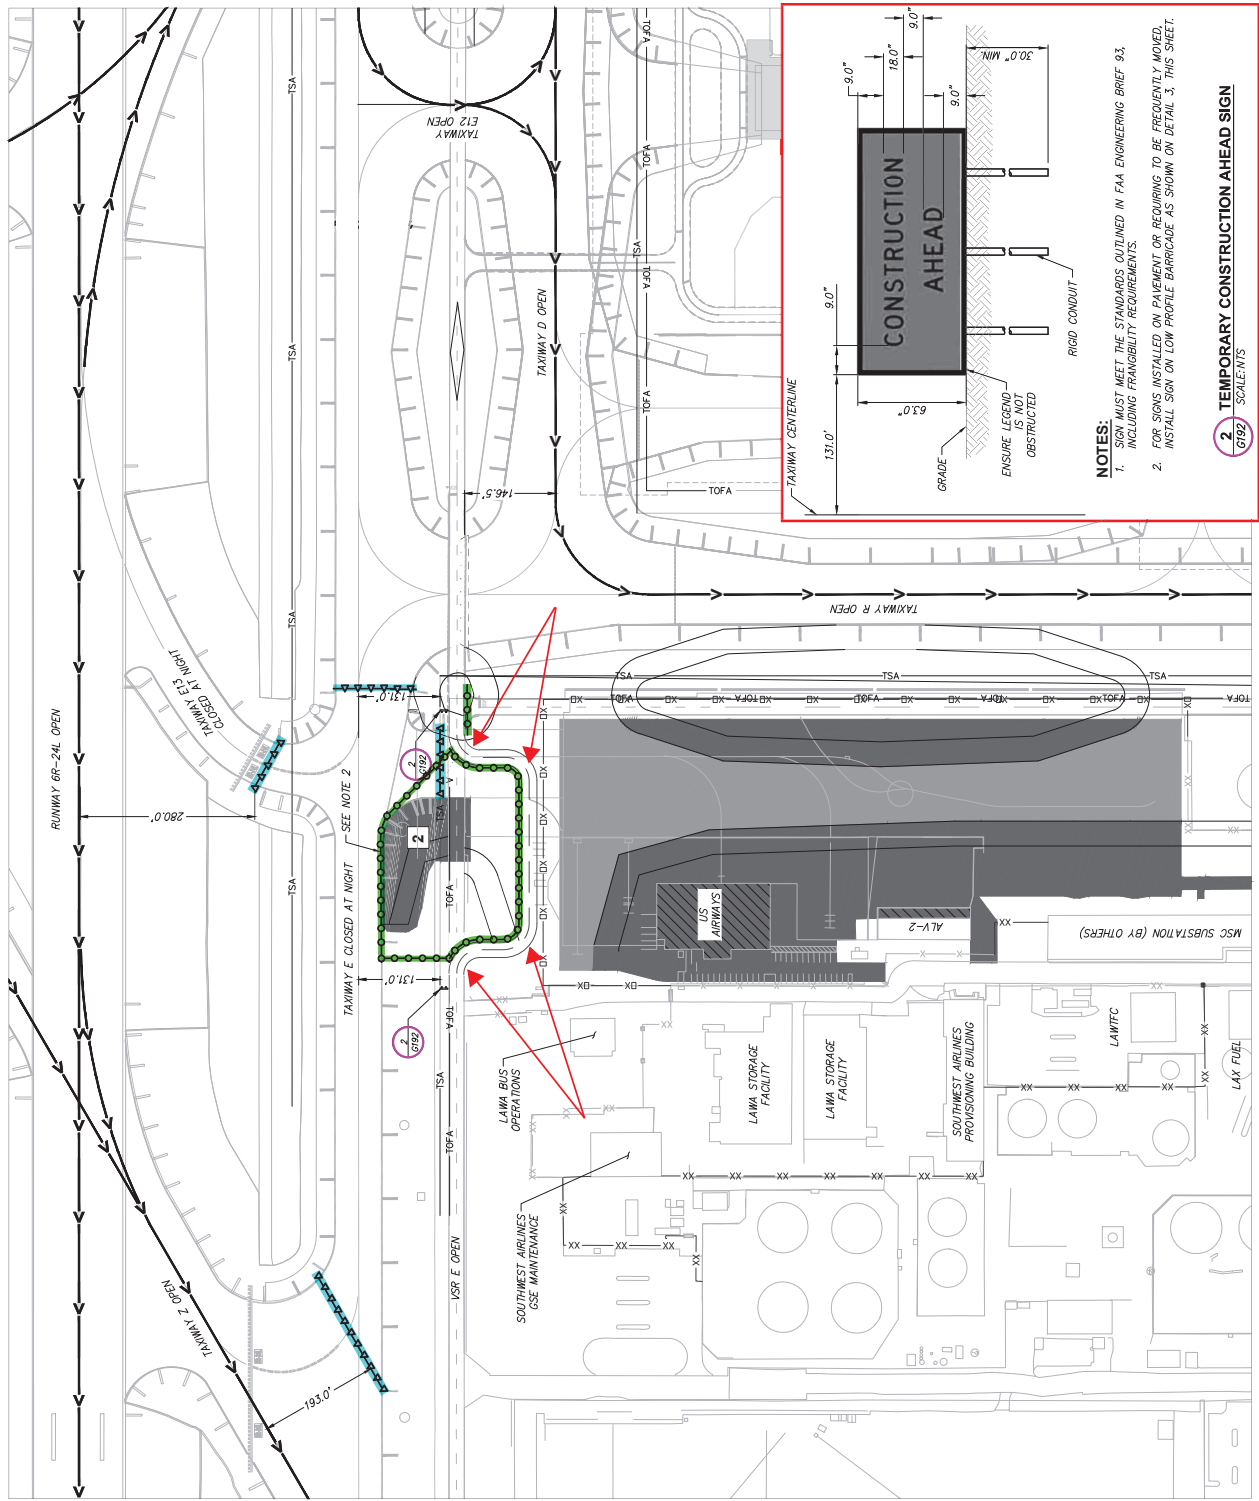

For questions or comments regarding this advisory please contact Airside Manager, Jeff Mort, [Jmort@lawa.org](mailto:Jmort@lawa.org).
