MEDIA ADVISORY

Hollywood Burbank Airport and Van Nuys Airport Reschedule Final Joint Noise Task Force Meeting in Response to COVID-19 Outbreak

WHAT: Due to State, County and City coronavirus directives that large events be postponed, Hollywood Burbank Airport and Van Nuys Airport have rescheduled the seventh and final meeting of the Southern San Fernando Valley Airplane Noise Task Force. Working with Task Force Chair, Burbank Councilmember Emily Gabel-Luddy and Task Force Vice Chair, Los Angeles City Councilmember Paul Krekorian, the Airports decided to postpone the meeting to ensure all interested community members have an ability to voice their opinion before the Task Force makes its final recommendations to the FAA. The Task Force, made up of 13 members, includes elected representatives and their staff from communities that are or may be affected by aircraft procedural and operational changes related to aircraft noise in the Southern San Fernando Valley. A meeting agenda will be posted to the Airport's websites [here](#) at least 72 hours prior to the meeting.
