March 27, 2014

Ms. Cynthia Guidry, P.E.
Interim Deputy Executive Director
Los Angeles World Airports
1 World Way, 2nd Floor
Los Angeles, CA 90045-5803

Dear Ms. Guidry:

MIDFIELD SATELLITE CONCOURSE PROJECT/CASE NO. 001-014LAXSP

Your letter of March 6, 2014 sent to the Bureau of Engineering for review of the Midfield Satellite Concourse Project was referred to my office for response.

As duly noted in your project description, the Midfield Satellite Project is located entirely within the City of Los Angeles LAX Plan area and would, therefore, not appear to affect any non-airport roadways nor cause changes to storm water runoff or the storm drain system.

A review of the DEIR for this project does indicate that it spans the North Outfall Replacement Sewer (NORS) and anticipates a direct connection to NORS. There was no mention of the volume of wastewater to be generated nor whether there is a risk of sewer gases backing up into the connecting sewer, resulting in sewer odor problems in the new concourse. There was also no mention of physically protecting NORS from the overlying concourse structure.

If you have any questions, please contact me at (310) 575-8381.

Sincerely,

Michael Patonai, P.E.
District Engineer
